

Main Street Project Update

Severino Trucking Selected as Contractor

One bid was received on April 19th from Severino Trucking, Inc. of Candia, NH. At its April 25, 2007 Workshop, the Town Council authorized the Town Administrator to enter into a contract with Severino.

Staff and Underwood Engineers met with them on May 1 to begin discussions on schedule and how the project would be staged.

Work to Begin in the "Bowl"

Severino advised that they would first construct the "cross-country" sanitary sewer line, which extends from Exeter Road across Prescott St. to Creighton St.

Work would then commence on Exeter Road from the Route 152 Intersection (Flora Ventures) to New Road. They expect to complete this work in November 2007.

Downtown businesses and residents should not expect construction to begin on Main Street until April 2008.

Issue No. 1 May 10, 2007

**CONSTRUCTION NOW
SCHEDULED TO START IN
JULY 2007**

Newsletter Spotlight

In order to be able to carefully plan out the schedule and prosecution of work, Severino advised the Town that they recommend beginning the project in late July.

Drainage Issues on Exeter Road

Public Meeting to be held on May 17th at 7:00 p.m. at Town Hall Auditorium

100 Years Goes by Quickly

Newmarket, like the rest of New Hampshire, experienced another "100 Year Flood" on April 15th and 16th.

As it did during last year's "Mother's Day Flood," Exeter Road and the surrounding area had a significant amount of flooding.

The Town has instructed Underwood Engineers to prepare a proposal to provide a Drainage Study to identify inadequate drainage infrastructure and storm water controls upstream and downstream of the Exeter Road Basin and to provide recommendations for possible mitigation to alleviate future flooding.

Underwood will present their proposal and ask for input from affected residents at a meeting to be held on May 17th in the Town Hall Auditorium, beginning at 7:00 p.m. Town officials and staff will also be in attendance.

All Newmarket residents are invited to attend.
